

Geography Knowledge Organiser- Spring One

How can we live more sustainably?

Important vocabulary I will learn

Raw material	things found in nature that are used to make products people use
Renewable	energy from a source such as wind that is never used up (infinite)
Non-renewable	energy from a source such as oil which will eventually be used up (finite)
Fossil fuel	energy sources made of carbon such as oil that are non-renewable
Biodiversity	the variety of plants and animals living in a particular place
Conservation	the protection of environments to prevent their loss or destruction
Global warming	the warming up of the Earth's atmosphere through the build-up of greenhouse gases such as carbon dioxide and methane
Deforestation	cutting down huge areas of woodland to use the land for other purposes
Ecosystem	the community of living things to be found in a particular area which depend upon each other
Habitat	the natural home of a living thing such as a plant or animal
Pollution	something added to the environment that is harmful to living things

Renewable sources of energy I will study

Solar

Wind

Hydro power

Non-renewable sources of energy I will study

Coal

Natural Gas

Oil

Important processes I will understand

Global warming
